CLINICAL AND EXPERIMENTAL IMMUNOLOGY

CONTENTS

Vol. 76 No. 1 April 1989

N. D. GARBETT, D. D. CURRIE & P. J. COLE: Comparison of the clinical efficacy and safety of an intramuscular and an intravenous immunoglobulin preparation for replacement therapy in idiopathic adult onset panhypoglobulinaemia 1

N. D. GARBETT, C. S. MUNRO & P. J. COLE: Opsonic activity of a new intravenous immunoglobulin preparation: Pentaglobin compared with Sandoglobulin 8

L. TILMANT, J. P. DESSAINT, A. TSICOPOULOS, A. B. TONNEL & A. CAPRON: Concomitant augmentation of $CD4^+$ $CD45R^+$ suppressor/inducer subset and diminution of $CD4^+$ $CDw29^+$ helper/inducer subset during rush hyposensitization in hymenoptera venom allergy 13

M. E. NORTH, G. P. SPICKETT, J. ALLSOP, A. D. B. WEBSTER & J. FARRANT: Defective DNA synthesis by T cells in acquired 'common-variable' hypogammaglobulinaemia on stimulation with mitogens 19

A. J. BARNETT, B. D. TAIT, M. A. BARNETT & B. H. TOH: T lymphocyte subset abnormalities and HLA antigens in scleroderma (systemic sclerosis) 24

J. A. SNOOK, R. W. CHAPMAN, K. FLEMING & D. P. JEWELL: Anti-neutrophil nuclear antibody in ulcerative colitis, Crohn's disease and primary sclerosing cholangitis 30

C. A. WALKER, P. FITZHARRIS, J. L. LONGBOTTOM & A. J. NEWMAN TAYLOR: Lymphocyte sensitization to *Aspergillus fumigatus* in allergic bronchopulmonary aspergillosis 34

B. NOBLE, R. M. DU BOIS & L. W. POULTER: The distribution of phenotypically distinct macrophage subsets in the lungs of patients with cryptogenic fibrosing alveolitis 41

L. CHIOVATO, P. VITTI, P. CUCCHI, C. MAMMOLI, P. CARAJON & A. PINCHERA: The expression of the microsomal/peroxidase autoantigen in human thyroid cells is thyrotrophin-dependent 47

A. PERL, P. D. GOREVIC, D. H. RYAN, J. J. CONDEMI, R. J. RUSKOWSKI & G. N. ABRAHAM: Clonal B cell expansions in patients with essential mixed cryoglobulinaemia 54

P. ENGEL, J. INGLÉS, O. DE LA CALLE & T. GALLART: Cellular activation without proliferation to B cell growth factor and interleukin 2 in chronic lymphocytic leukaemia B cells stimulated with phorbol ester plus calcium ionophore 61

P. S. FRIEDMANN, S. I. WHITE, S. PARKER, C. MOSS & J. N. S. MATTHEWS: Antigenic stimulation during ultraviolet therapy in man does not result in immunological tolerance 68

N. D. GARBETT, G. S. MATHARU & P. J. COLE: Defective opsonization of *Haemophilus influenzae* by sera of elderly patients 73

E. R. HOLME, J. VEITCH, A. JOHNSTON, G. HAUPTMANN, B. URING-LAMBERT, M. SEYWRIGHT V. DOCHERTY, W. N. MORLEY & K. WHALEY: Familial properdin deficiency associated with chronic discoid lupus erythematosus 76

Y. TANUMA, H. OHI, S. WATANABE, M. SEKI & M. HATANO: C3 nephritic factor and C4 nephritic factor in the serum of two patients with hypocomlementaemic membranoproliferative glomerulonephritis 82

D. LAPPIN & K. WHALEY: Modulation of monocyte complement synthesis by lymphocytes and lymphocyte-conditioned media 86

M. SALVARREY & A. ROSTAGNO: Affinity of fibronectin for polyclonal IgG 92

D. J. SMITH, W. F. KING & M. A. TAUBMAN: Isotype, subclass and molecular size of immunoglobulins in salivas from young infants 97

T. OGAWA, M. L. MCGHEE, Z. MOLDOVEANU, S. HAMADA, J. MESTECKY, J. R. MCGHEE & H. KIYONO: *Bacteroides*-specific IgG and IgA subclass antibody-secreting cells isolated from chronically inflamed gingival tissues 103

R. A. KAY & A. FERGUSON: Systemic delayed-type hypersensitivity to cholera toxin and a detoxified derivative 111

R. D'AMELIO, G. DEL GIUDICE, F. DE ROSA, G. BRIGHOUSE, A. TEGGI & P. H. LAMBERT: Spectrotypic analysis of humoral response in human hydatidosis 117

H.-D. VOLK, O. JOSIMOVIC-ALASEVIC, M. GROSS & T. DIAMANTSTEIN: The therapeutic efficacy of an anti-IL-2 receptor monoclonal antibody correlates with an increase in serum soluble IL-2 receptor levels 121

R. TURCOTTE & S. LEMIEUX: Unresponsiveness to Con A in spleen cell cultures of *M. lepraemurium*-infected mice is dependent on a defective expression of high-affinity IL-2 receptors rather than on a lack of IL-2 production 126

K. N. WILEY, A. CLARK & M. FOX: The *in-vitro* inhibition of rat alloantigen presentation by immunotoxins—implications for allografting 132

R. KRAFT, H. BUERKI, T. SCHEIZER, M. W. HESS, H. COTTIER & R. D. STONER: Tetanus toxoid complexed with heterologous antibody can induce germinal centre formation and B cell memory in mice without evoking a detectable anti-toxin response 138

J. PAPPO & T. H. ERMAK: Uptake and translocation of fluorescent latex particles by rabbit Peyer's patch folicle epithelium: a quantitative model for M cell uptake 144

Vol. 76 No. 2 May 1989

I. E. Addison, B. Johnson, S. Devereux, A. H. Goldstone & D. C. Linch: Granulocyte-macrophage colony-stimulating factor may inhibit neutrophil migration *in vivo* 149

T. Chugo, T. Machii, S. Tagawa, H. Kuratsune, E. Ueda, H. Kimura & T. Kitani: Inhibition of human natural killer activity by antiserum against vitamin D-binding protein, a group-specific component (Gc) 154

A. S. Cross, G. Siegel, W. R. Byrne, M. Trautmann & D. S. Finbloom: Intravenous immune globulin impairs anti-bacterial defences of a cyclophosphamide-treated host 159

J. Magsaam, A. E. Gharavi, A. P. Parnassa, H. Weissbach, N. Brot & K. B. Elkon: Quantification of lupus anti-ribosome P antibodies using a recombinant P2 fusion protein and determination of the predicted amino acid sequence of the autoantigen in patients' mononuclear cells 165

W. J. A. Habets, M. H. Hoet, P. T. G. Sillekens, D. J. R. A. M. De Rooij, I. B. A. Van De Putte & W. J. Van Venrooij: Detection of autoantibodies in a quantitative immunoassay using recombinant ribonucleoprotein antigens 172

S. Mouritsen, M. Høier-Madsen, A. Wiik, Ø. Orum & N. Strandberg Pedersen: The specificity of anti-cardiolipin antibodies from syphilis patients and from patients with systemic lupus erythematosus 178

R. Meliconi, M. Bestagno, C. Sturani, C. Negri, V. Galavotti, C. Sala, A. Facchini, G. Ciarrocchi, G. Gasbarrini & G. C. B. Astaldi Ricotti: Autoantibodies to DNA topoisomerase II in cryptogenic fibrosing alveolitis and connective tissue disease 184

S. Argov, C. L. Jaffe, M. Krupp, H. Slor & Y. Shoenfeld: Autoantibody production by patients infected with *Leishmania* 190

W. Cronin, H. Deol, A. Azadegan & K. Lange: Endostreptosin: isolation of the probable immunogen of acute post-streptococcal glomerulonephritis (PSGN) 198

J. González-Cabrero, J. Egido, F. Mampaso, M. C. Rivas & L. Hernando: Characterization of circulating idiotypes containing immune complexes and their presence in the glomerular mesangium in patients with IgA nephropathy 204

R. M. Hoffmann, G. R. Pape, U. Spengler, E. P. Rieber, J. Eisenburg, J. Döhrmann, G. Paumgartner & G. Riethmüller: Clonal analysis of liver-derived T cells of patients with primary biliary cirrhosis 210

P. A. Broliden, L. Morfeldt-Månsson, J. Rosen, M. Jondal & B. Wahren: Fine specificity of IgG subclass response to group antigens in HIV-1-infected patients 216

A. Fernan, C. J. R. Cayzer & W. G. E. Cooksley: HBsAg-induced antigen-specific T and B lymphocyte responses in chronic hepatitis B virus carriers and immune individuals 222

R. Tertti, K. Granfors, R. Lahesmaa-Rantala & A. Toivanen: Serum opsonic capacity against *Yersinia enterocolitica* 0:3 in yersiniosis patients with or without reactive arthritis 227

A. Mittal, R. S. Mishra & I. Nath: Accessory cell heterogeneity in lepromatous leprosy; dendritic cells and not monocytes support T cell responses 233

C. Moreno, J. Taverne, A. Mehlert, C. A. W. Bate, R. J. Brealey, A. Meager, G. A. W. Rook & J. H. L. Playfair: Lipoarabinomannan from *Mycobacterium tuberculosis* induces the production of tumour necrosis factor from human and murine macrophages 240

R. Ruschen, G. Lemm & H. Warnatz: Spontaneous and LPS-stimulated production of intracellular IL-1β by synovial macrophages in rheumatoid arthritis is inhibited by IFN-γ 246

F. Martinez & J. W. Coleman: The effects of selected drugs, including chlorpromazine and non-steriodal anti-inflammatory agents, on polyclonal IgG synthesis and interleukin 1 production by human peripheral blood mononuclear cells *in vitro* 252

A. Yachie, Y. Ueno, N. Takano, T. Miyawaki & N. Taniguchi: Developmental changes of double-negative ($CD^+ 4^- 8^-$) T cells in human peripheral blood 258

D. W. Hoskin & R. A. Murgita: Specific maternal anti-fetal lymphoproliferative responses and their regulation by natural immunosuppressive factors 262

I. Millet, F. Briere, C. Vincent, F. Rousset, C. Andreoni, J. E. De Vries & J. P. Revillard: Spontaneous expression of a low affinity Fc receptor for IgA (FcαR) on human B cell lines 268

A. K. Bhalla, M. M. Williams, S. Lal & P. M. Lydyard: 1,25-Dihydroxyvitamin D_3, but not retinoic acid, induces the differentiation of U937 cells 274

K.-I. Naruo, S. Hinuma, O. Shiho, T. Houkan, K. Ootsu & K. Tsukamoto: Detection and characterization of anti-tumour effector cells in Meth-A-bearing mice treated with recombinant human interleukin 2 278

J. A. Bruijn, E. H. Van Elven, W. E. Corver, M. Oudshoorn Snoek & G. J. Fleuren: Genetics of experimental lupus nephritis: non-H-2 factors determine susceptibility for renal involvement in murine chronic graft-versus-host disease 284

H. A. M. Voorby, R. D. Van Der Gaag, P. H. M. Jeucken, A. M. Bloot & H. A. Drexhage: The goitre of the BB/O rat: an animal-model for studying the role of immunoglobulins stimulating growth of thyroid cells 290

F. W. J. J. Snel, Th. A. Niewold, M. L. Baltz, P. R. Hol, A. M. Van Ederen, M. B. Pepys & E. Gruys: Experimental amyloidosis in the hamster: correlation between hamster female protein levels and amyloid deposition 290

N. Manolios, L. Schreiber, M. Nelson & C. L. Geczy: Enhanced interferon-gamma (IFN) production by lymph node cells from autoimmune (MRL/l, MRL/n) mice 301

L. Hofman-Goetz, R. Thorne, J. A. Randall Simpson & Y. Arumugam: Exercise stress alters murine lymphocyte subset distribution in spleen, lymph nodes and thymus 307

L. T. Peçanha & G. A. Dos Reis: Functional heterogeneity in the process of T lymphocyte activation; barium blocks several modes of T cell activation but spares a functionally unique subset of PHA-activated T cells 311

Vol. 76 No. 3 June 1989

S. HASHIMOTO, C. C. MCCOMBS & J. P. MICHALSKI: Mechanism of a lymphocyte abnormality associated with HLA-B8/DR3 in clinically healthy individuals 317

I. C. S. KENNEDY, D. N. J. HART, B. M. COLLS, J. C. NIMMO, D. A. WILLIS, & H. B. ANGUS: Nodular asclerosing, mixed cellularity and lymphocyte-depleted variants of Hodgkin's disease are probable dendritic cell malignancies 324

J. P. LANTIN, I. GRAF & P. C. FREI: Serological diagnosis of HIV infection: incidence, outcome and significance of partial reactions found in Western blot analysis 332

Y. UENO, N. TAKANO, H. KANEGANE, T. YOKOI, A. YACHIE, T. MIYAWAKI & N. TANIGUCHI: The acute phase nature of interleukin 6: studies in Kawasaki disease and other febrile illnesses 337

E. FILLEY, A. ANDREOLI, J. STEELE, M. WATERS, D. WAGNER, D. NELSON, K. TUNG, T. RADEMACHER, R. DWEK & G. A. W. ROOK: A transient rise in agalactosyl IgG correlating with free interleukin 2 receptors, during episodes of erythema nodosum leprosum 343

J. S. H. GASTON, P. F. LIFE, K. GRANFORS, R. MERILAHTI-PALO, L. BAILEY, S. CONSALVEY, A. TOIVANEN & P. A. BACON: Synovial T lymphocyte recognition of organisms that trigger reactive arthritis 348

N. TSUCHIYA, G. HUSBY & R. C. WILLIAMS JR: Studies of humoral and cell-mediated immunities to peptides shared by HLA-27.1 and *Klebsiella pneumoniae* nitrogenase in ankylosing spondylitis 354

A. GRÖNBERG, A. FRYDÉN & E. KIHLSTROM: Humoral immune response to individual *Yersinia enterocolitica* antigens in patients with and without reactive arthritis 361

M. YANEVA & F. C. ARNETT: Antibodies against Ku protein in sera from patients with autoimmune diseases 366

M. REICHLIN, M. RADER & J. B. HARLEY: Autoimmune response to the Ro/SSA particle is directed to the human antigen 373

D. BUSKILA, M. ABU-SHAKRA, H. AMITAL-TEPLIZKI, A. R. M. COATES, M. KRUPP, S. SUKENIK & Y. SHOENFELD: Serum monoclonal antibodies derived from patients with multiple myeloma react with mycobacterial phosphoinositides and nuclear antigens 378

J. M. DEVERY, J. T. LA BROOY, S. KRILLIS, G. DAVIDSON & J. H. SKERRITT: Anti-gliadin antibody specificity for gluten-derived peptides toxic to coeliac patients 384

F. N. RASHEED, M. LOCNISKAR, D. J. MCCLOSKEY, R. S. HASAN, T. J. CHIANG, P. ROSE, R. DE SOLDENHOFF, H. FESTENSTEIN & K. P. W. J. MCADAM: Serum lymphocytotoxic activity in leprosy 391

S. MAKONKAWKEYOON & W. KASINRERK: *In vitro* suppression of interleukin 2 production by *Mycobacterium leprae* antigen 398

N. TVEDE, C. HEILMANN & L. DALH CHRISTENSEN: Interleukin 2 receptor expression by human blood lymphocytes after vaccination with pneumococcal polysaccharides 404

C. GARZELLI, A. PACCIARDI, F. BASOLO & G. FALCONE: Mechanisms other than polyclonal B cell activation possibly involved in Epstein–Barr virus-induced autoimmunity 412

V. PANCRÉ, M. JOSEPH, A. CAPRON, A. DELANOYE, H. VORNG & C. AURIAULT: Characterization of a suppressive factor of platelet cytotoxic functions in human and rat schistosomiasis *mansoni* 417

A. K. HUBBARD, T. P. ROTH, S. SCHUMAN & A. J. GANDOLFI: Localization of halothane-induced antigen *in situ* by specific anti-halothane metabolite antibodies 422

A. CARLSEN, G. GAUDERNACK, C. FILION-MYKLEBUST, K. S. PETTERSEN & H. PRYDZ: Allogeneic induction of thromboplastin synthesis in monocytes and endothelial cells. Biphasic effect of cyclosporin A 428

W. SCHÖNFELD, A. SAAK, G. STEINKAMP, H. VAN DER HARDT & W. KONIG: Histamine release from basophils in cystic fibrosis 434

B. GANSBACHER & K. S. ZIER: HLA Class II mRNA accumulation by activated human T cells following growth in conditioned medium 440

C. BURRELS, P. F. NETTLETON, H. W. REID, H. R. P. MILLER, J. HOPKINS, I. MCCONNELL, M. D. GORRELL & M. R. BRANDON: Lymphocyte subpopulation in the blood of sheep persistently infected with Border disease virus 446

G. K. HARVEY, J. D. POLLARD, K. SCHINDHELM & J. G. MCLOED: Experimental allergic neuritis: effect of plasma infusions 452

H. F. LECOEUR, P. H. LAGRANGE, C. TRUFFOT-PERNOT, M. GHEORGHIU & J. GROSSET: Relapses after stopping chemotherapy for experimental tuberculosis in genetically resistant and susceptible strains of mice 458

T. OITE, F. SHIMIZU, S. KAGAMI & T. MORIOKA: Hapten-specific cellular immune response producing glomerular injury 463
